NCI software enhances Digital Earth Australia

NCI's newly developed GSKY software has been integrated into Geoscience Australia's Digital Earth Australia platform. The partnership will greatly enhance data accessibility for a wide range of users and is the first step in truly unlocking the power of satellite data in Australia. [Read more.](#)

NCMAS 2019 applications

Applications for the National Computational Merit Allocation Scheme for compute time on Raijin and its successor will be accepted between 3 September and 19 October. [Read more.](#)

Eureka! Prizes for NCI users

Congratulations to NCI users Professor Andrew Blakers, Dr Matthew Stocks and Bin Lu from ANU, Professor Tony Weiss AM at the University of Sydney, and Professor Sally Dunwoodie and her team at Victor Chang on their Eureka Prizes. [Read more.](#)

NCMAS Committee Expressions of Interest

The NCMAS Committee is calling for Expressions of Interest from researchers who would like to be involved in assessing applications for HPC resources. [Read more.](#)

Join our team

It's not too late to apply to become our Linux System Administrator. [Read more.](#)

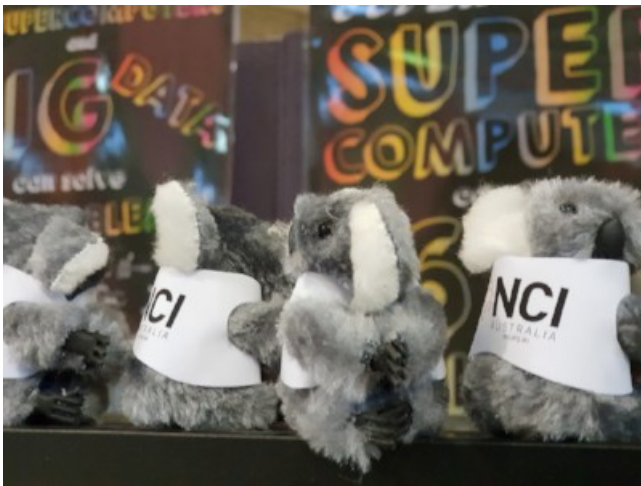

Award for NCI VizLab-artist collaboration

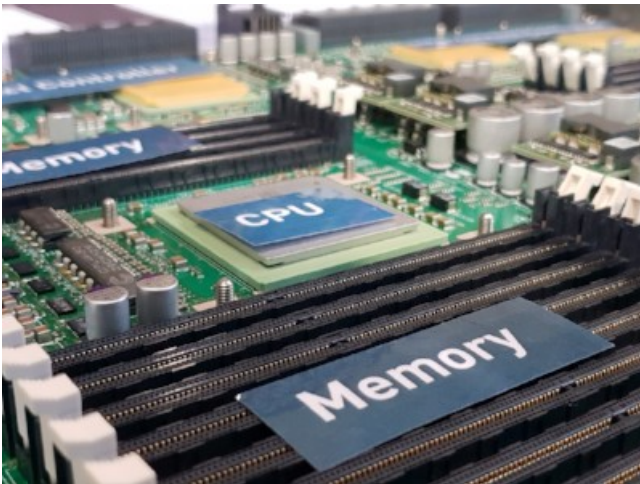

NCI would like to congratulate long-time NCI user and artist Dr Erica Seccombe on winning the \$30,000 2018 Waterhouse Natural Science Art Prize. [Read more.](#)

Quarterly maintenance October 2nd 2018

NCI systems will be unavailable during quarterly scheduled maintenance from 8am-6pm on Tuesday 2nd October. Further details will be provided in the coming weeks.

NCI showcased all things supercomputers to thousands of students and members of the local community at the biggest [Science in ACTion](#) exhibition yet this month. Lots of kids were keen to play video games on Raijin, and some budding entrepreneurs wanted to know whether they could mine cryptocurrencies. A fun time was had by all. [Read more.](#)

Have questions? Need help?

Contact the NCI User Support Team:

help.nci.org.au

Access NCI's User Documentation portal:

opus.nci.org.au

Every month, NCI's User Services Team updates Raijin's software. This month, 12 new applications were installed, including:

- aces/2.8.0
- BerkeleyGW/2.0.0
- comsol/5.3a

See the full list [here](#).
