Research Data Collection

Data Management Plan

<Dataset Title>

<Authors/Submitters>

<Logo, if required>

Data Description	
File Identifier	Web application generated. NCI only.
Parent Identifier	Can be selected from pick list.
Dataset thumbnail/logo	Use for the front page of data catalogue.
Hierarchy Level	Please specify whether it is a collection or series.
Data Collection Title	Please specify name/title of the data collection or series.
Title Alias	For metadata display purpose. No more than 35 characters.
Alternative Title	Please provide other names the dataset is known by, including any acronyms.
NCI Data Collection Code	The project code on Mancini system.
Dataset abstract	Provide an adequate summary of the content including:
Data Ownership	Please state who in which organization(s) own(s) the data.
Data Custodianship	Please state who in which organization(s) maintain(s) the data.
DOI	10.xxxx/xxxxxxxxx.
Dataset Citation	Authors. Year. Title. Publisher. DOI. A bibtex file is recommended to be provided by the data manager.
Associated NCI hosted lineage datasets	Pick related records. It will be particularly useful when associates with service catalogue in the future.
Associated datasets/lineage	External lineage catalogue datasets URL, DOI, or lineage statement.
Dataset Provenance	Please provide the derivation history of the data or versioning since the data has been received from the third party. If the dataset was collected as part of a specific grant program, or project, etc., please specify the name.
Dataset Reuse	Please provide a description of why the dataset was developed and how it was intended that it would be used. Some example of how to use the data would be useful, too.

Dataset Status	Status of the dataset. Please select from the pick list:
Topic Category	Please select from the pick list:
Product Description and/or Data specification	<p>Please provide a link to any additional document that describes the dataset and its specifications. An example of such a document is:</p> <p>http://www.ga.gov.au/_data/assets/pdf_file/0018/11871/Australian-Reflectance-Grid-ARG25-Product-Information-Beta-Release-PDF-2.pdf</p> <p>Or the URL of the readme.txt file</p>
Roles/Contacts from the Provider Organization	
Principle Investigator responsible for the data	Please provide the following information of the person who is the Principle Investigator (i.e., in charge) of the development of the data.
Content Expert	Please provide the following information of the person who is responsible for the content and maintenance of the content in the data
Contact for Media Communication	Please provide the following information of the media person who is responsible for media communications such as writing reports, making videos, broadcasting, press articles, etc.
Publisher	NCI, help@nci.org.au ,
Constraints on the Data	
Limitations on using the data	Please provide information on the fitness for purpose including any limitations on use for the dataset and specify any special requirements such as 'Not suitable for navigation purposes'; 'Research and data collection in indigenous communities' and 'Ethnographic data'
License Type For Access Constraints	license
Copy of Access Constraints	Please provide physical copies of the license and other information that pertain to constraining access to the data.

Security Classification	Please select the level of restriction from the pick list:
--------------------------------	--

Extent

Spatial Extent	Please provide spatial extent for the dataset (lat/long) in the format of [-90 90]/[-180 180] and datum/projection.
Temporal Extent	Please provide date/time (e.g. start date/ end date) when the dataset was acquired. The end date may be the expected date of the project completion in the case of an ongoing project.

Formats

Format Name/Version	Please provide the name of the data format (e.g. NetCDF)
Transfer Size	Size of the data in MB, GB, or TB.

Data publishing

QA/QC	URL of the QA/QC report
Services URLs for accessing data	<p>Please provide the URL of the data services. Please select the service type, filled with corresponding name, protocol, URL, description and Function.</p> <p>Protocol can be picked from the list. URL should be resolvable. Maximum 6 entries are allowed in the online form.</p>
Field of Research	<p>We require the ABS Field Research List as keywords.</p> <p>http://www.abs.gov.au/AUSSTATS/abs@.nsf/0/6BB427AB9696C225CA2574180004463E?opendocument</p>
Keywords	Please choose words from a governed vocabulary that is in a controlled namespace (and provide links).
Paper reference	Publication citation
Local file path	NCI will populate the local storage file path of the data on /g/data at NCI.
Metadata catalogue create date	When the metadata records are created.
